

The screenshot shows the Microsoft Entra ID interface for managing a group named 'Simple'. The left sidebar contains navigation options like 'Users', 'Groups', 'Roles', and 'Security'. The main content area is titled 'Users in this group' and includes a 'Summary' tab. The summary section provides details about the group, such as its creation date and the application it is associated with. Below this, a table lists the members of the group, showing their names and the time since their last activity.

User	Group	Last activity
Simpson	Simple	28 minutes ago
Hill	Simple	28 minutes ago

The screenshot shows the 'Simple' group page in the Microsoft Entra ID portal. The 'Permissions policies' section is expanded, displaying a table of policies assigned to the group.

Policy name	Type	Description
Microsoft.Exchange.ManagedGroupMailbox	Mailbox management	Provides full access to Microsoft Exchange 3.0 and Microsoft Exchange 3.0.
Microsoft.Exchange.ManagedGroupMailbox	Mailbox management	Provides full access to Microsoft Exchange 3.0 and Microsoft Exchange 3.0.

The screenshot shows the AWS IAM console interface for managing user groups. At the top, there's a breadcrumb trail: 'Users > User groups'. Below this, the title 'User groups' is followed by a link to the AWS documentation. A descriptive text states: 'A user group is a collection of IAM users. User groups let you specify permissions for a collection of users.' To the right of this text are buttons for '+ Add user to group', 'Delete', and 'Create group'. Below the text is a search bar with the placeholder text 'Filter user groups by group name or group name prefix'. The main content area displays a table of user groups. The table has four columns: 'Group name', 'Permissions', and 'Creation time'. There is one entry in the table: 'Group1' with 'FullControl' permissions, created '2 minutes ago'. The '+ Add user to group' button is highlighted with a red box.

Group name	Permissions	Creation time
Group1	FullControl	2 minutes ago
